

## How to fill out your Thesis Agreement / Point 7-9:

### Point 7)

Here, those planned achievements are to be indicated that are to be used to fulfil the ECTS points prescribed in the curriculum. These are **24 ECTS points**.

- List the planned courses. Write down the expected number of ECTS points for each course. (Adjustments to the actual courses offered can then be made within the framework of the progress reports.)
- **Dissertation seminars** and colloquia from the offer of SPL 41 are highly recommended from the Head of Study Programm.
- You do not need to give a specific course title if it is about courses from coming semesters whose course offerings are not yet known.
- If you are planning **further courses**, please indicate an approximate subject area and, if possible, the type of course: e.g. SE on the philosophy of science, VO on Austrian history, methodological seminar, etc
- Your **own academic work** (conference presentation, etc.), for which you would like to receive ECTS points, is also to be entered under point 7; please estimate the ECTS points indicated on the [homepage of the Doctoral School](#).

### Point 8)

Here you can choose from the work-shop offer of the Doctoral Centre. Please note that NO ECTS points will be awarded for the services listed here.

### Point 9)

Here you can indicate (further) (external) akademik work, for which, however, NO ECTS points can be awarded.

Changes to the thesis agreement are possible at any time within the framework of the annual progress reports.
